History

History

Denmark became a member of the International Ice Hockey Federation on April 27, 1946

Denmark once held the record for the largest loss when they were defeated by Canada in 1949, 47–0, only being surpassed by New Zealand who were defeated by Australia 58-0 in 1987.

In 2003, Denmark was back in the elite pool of the IIHF World Championships after 54 years. The Danish national hockey team scored two historic, unexpected upsets in Tampere, Finland, defeating the United States 5–2 on 26 April 2003 and a tie game against Canada 2–2 six days later on 2 May 2003. Denmark has remained in the top division ever since. At the 2010 World Championships Denmark finished 8th place, which is their best ever placing to date.

Best Result World Championships 8th, place 2010, 2016
